

LOW-VOLUME SOLUTION

SMALL • EASY TO USE • RELIABLE

ABBOTT
HEMATOLOGY

**An Abbott
solution developed
specifically for the
cost-conscious
laboratory.**

**Small, Easy to Use
and Reliable.**

Get more than expected from CELL-DYN Emerald.

Results ready in just 60 seconds for optimum patient care. As laboratories seek greater efficiency, CELL-DYN Emerald offers a compact, reliable analyzer with intuitive touch screen software and minimal maintenance.

RELIABILITY AND A SOLID WARRANTY FOR PEACE OF MIND

- 12-month warranty
- Uninterruptible power supply (UPS)
- Minimal maintenance

ADVANTAGE SERVICE PACKAGE FOR COMPREHENSIVE COVERAGE

- 24/7 access to technical experts with laboratory experience
- Multi-level controls and calibrator
- Flexible QC program

MULTIPLE TRAINING OPTIONS FOR CONVENIENCE

- On-site training to serve multiple staff members
- Computer-based training (CBT) as a refresher course
- Electronic library for self-paced learning

The CELL-DYN Emerald is an automated hematology analyzer intended for *in vitro* diagnostic use in the clinical laboratory. Refer to Operators Manual for operational precautions, limitations and hazards.

Put science on your side.

LOW-VOLUME SOLUTION

DATA CONNECTIVITY FOR HASSLE-FREE REPORTING

- Electronic Medical Record (EMR)
- Laboratory Information System (LIS)
- USB data port for unlimited data storage

BARCODE READER FOR FEWER ERRORS AND IMPROVED EFFICIENCY

- Ready-to-use reagents with low consumption and minimal waste
- Lot and expiry information entered via barcode labels
- Patient identification entered via barcode labels

CONTROL AT YOUR FINGERTIPS FOR INSTRUMENT ASSESSMENT

- CELL-DYN 18 Plus Control and Calibrator
- Assayed at multiple levels for system monitoring

PEER REVIEW PROGRAM WITH GLOBAL ACCESS

- Flexible upload window; ready when you are
- International access from any PC
- On-demand reporting according to your needs
- Customized reports to see the data vital to your facility

MORE THAN EXPECTED

- Reliable instrumentation
- Experienced support
- Timely service
- Multiple training options
- Multi-level controls
- Peer review QC program
- Standard barcode reader
- LIS/EMR connectivity
